Welcome and presentation of the agenda

Mossa (PoliBa) welcomes the partner and presents the agenda.

Revision of all final results and supporting documents for WP3, WP4 and WP5

The partners revise the materials to be uploaded online for the final report.

WP3.

The partners agree to upload on the website not only the renewed training materials but also the Evaluation report structured considering the points included in the Action Plan (R3.1). All the evaluation reports are listed [here](#).

The following partners will upload all the training materials in the following folders:

- LiU:

The training materials will be uploaded online and made available for the Final report.

WP4.

All the files are correctly uploaded on the official IE3 folder and the project website. The documents will be uploaded for the final report.

WP5.

The partners validate the results R5.1 and R5.2.

Some minor changes should be done for R5.1:

- Aligning the text in the column “keys” and “characteristics”
- Replacing the acronym “IE&M” with “Industrial Engineering and Management”.

Final check of the modules included in R5.1

All the University partners revise the description of the Modules and the references to the Learning Outcomes. Mossa (PoliBa) presents the final version of this document that will be uploaded to the project website and used for the Final Report.

WP9. Revision of the sustainability plan and discussion of the exploitation plan and next activities for spreading the word about the project results

De Pascale (InfoTech) presents the information collected for the sustainability plan. The document is divided into two parts: Initiatives at the partner level and Initiatives at the partnership level.

The partners revise some minor points of the sustainability plan and approve it. The information included in the document ([here](#)) would be included also in the Final report.

All the partners would find in the exploitation plan ([here](#)) a template email for contacting Academics but also Deans, Rectors, Full Professors, Course coordinators, etc. and informing them about the project and its main results. The partners are invited to fill [this table](#) for keeping track of the people contacted.

**Analysis of the indicators for all WPs; Presentation of the analysis of the quarterly reports;
Financial reporting: what is needed for the financial statement for the Final Report**

Guadagni (Valuedo) gives a presentation on the activities relating to the status of completion of the last project tasks (quarterly reports, financial statements and contributions for the Final Report). The partners can find the presentations [here](#). All the partners are invited to double check what it is still pending for their organizations and react as soon as possible.
